## PROFESSIONAL EXPERIENCE

### **Tata Consultancy Services** **Software Engineer**

**Jan 2024 – Jan 2025**

- Designed and implemented a feature to enhance user account recovery and streamline the login process.
- Developed dynamic, scalable, and efficient components for validating and structuring user-uploaded data.
- Contributed to aligning the local portal with the production portal, ensuring consistency, reliability, and seamless deployment.
- Integrated application with Oracle, facilitating smooth data-management and real-time updates.
- Automated data validation, de-duplication, and migration between dealer data tables, ensuring accuracy and efficiency.
- Created a robust Excel validation tool using VBA to identify and log data inconsistencies with automated sheet protection.
- Generated payments report for the financial year using database queries and dynamic data visualisations.

### **KPIT**

**Oct 2023 – Jan 2024**

#### **Software Engineer Intern**

- Acquired skills in implementing the Agile Scrum Methodology to enhance software development process.
- Implemented and learned Client-Server architecture, RTOS, Embedded C programming.
- Demonstrated proficiency in Codeblocks, SimulIDE and VS Code for diverse projects.

### **Kochar InfoTech Limited**

**June 2022 – May 2023**

#### **Software Engineer**

- Built interactive mobile-friendly user interface, improving user engagement and experience across devices.
- Improved system reliability by developing a real-time dashboard for hardware tracking and status monitoring.
- Designed and implemented video-retrieval interfaces for warehouse analysis, improving reporting and monitoring efficiency.

## TECHNICAL SKILLS

**Programming Languages:** Python, C++, Java

**Development:** HTML, CSS, JavaScript

**Database:** SQL, PL/SQL, Oracle

**Tools/Technology:** DevOps, Power BI, Excel, Git, Jira

## EDUCATION

### **Lovely Professional University, Punjab**

**July 2019 – May 2023**

*B. Tech in Computer Science Hons. (CGPA: 8.66/10)*

### **St. Anthony's Sr. Sec. School, Udaipur**

**April 2018 – March 2019**

*XII, CBSE (Best Student Award)*

## ACHIEVEMENTS

- **Walmart Global Tech USA** – Advanced Software Engineering Virtual Experience Program
- **Juspay Hiring Challenge'2022**
- **Walmart CodeHers'2022 | Finalist**

## PROJECTS

### **FORMS AND EMAIL | Python, Django**

- Crafted email-focused web app with customisable templates for efficient communication.
- Enabled efficient email transmission via task queues for enhanced user experience.

### **WEATHER FORECAST | Python, Django**

- Engineered dynamic web app displaying real-time weather based on user's city input.
- Integrated user-friendly for city input, showcasing real-time weather updates.

### **RESULT MANAGEMENT SYSTEM | HTML, CSS, JavaScript, PHP, MySQL**

- Built an all-inclusive website for student information management, featuring PDF result generation.
- Streamlined student data management, simplifying input to result generation for administrative efficiency.

## CERTIFICATES

- The complete PL/SQL Bootcamp: "Beginner to Advanced PL/SQL" | **Code Star Academy**
- Python Basics | **University of Michigan**

**May 2024**

**June 2021**

## VOLUNTEER EXPERIENCE

### **Prarthana Manav Seva**

**January 2023 – Present**

#### **Child Welfare Program- NGO Involvement**

- Nurtured kids with food, play, and anti-malnutrition actions, creating impactful positive change.
